

RAILWAY WAGE SCALE IS HIGH.

Average Pay After Cut is an Increase Over 1917.

Labor Cost to Systems Has More Than Doubled.

Average Daily Rate for All Shows Big Boost.

(EXCLUSIVE DISPATCH.)

CHICAGO, Oct. 22.—Additional light on where the 1917, per cent wage cut offered by the Railroad Labor Board leaves the railroad workers is furnished by the figures of the board, which show that the average pay, straight time, after the cut, is still 42.2 per cent higher than it was in December, 1917, after the Adamson law. Here are some examples of how railroad wages have advanced.

The average daily rate in the terminal and station forces is \$4.12. In 1917 it was \$2.54.

Maintenance of way men and unskilled labor force at \$3.14. In 1917, it was \$2.14.

Shop employees, at straight time, average rate of \$5.41 a day in 1917 it was \$3.56.

AVERAGE DAILY RATE.

For all railroad groups, taken as a whole, the average daily rate of pay, straight time, is \$4.84 after the 1917 wage cut. In December, 1917, it was \$3.14.

Passenger engineers and motor men, after the cut, have an average monthly rate of \$1,127.12, as against \$1,059.93 in 1917. Freight engineers will average \$259.37 a month against \$175.44 in 1917.

The average monthly rate for passenger conductors is given as \$121.50, where, in 1917, it was \$105.75. These are all labor figures.

Since 1916, according to Interstate Commerce Commission figures, labor costs on the railroads have risen 152 per cent, while gross operating revenues have only increased 75 per cent.

In 1916, before the Adamson law went into effect, the labor bill of the carriers stood at \$1,468,576,394. In 1920, it had leaped to \$3,593,115,331, which was more than all the gross revenue in 1916. The increase in the labor bill amounted to \$2,124,538,937. The 1914 per cent wage cut makes a reduction of \$222,000,000 a year in the wage bill.

Out of each dollar of railway operating revenue in 1916, 4.6 cents went to labor. In 1920 labor cost 19.3 cents out of each dollar. In 1918, fuel took 7 cents of each dollar, and this jumped to 19.3 cents in 1920. Material, supplies and miscellaneous took 12.5 cents from every dollar in 1916, but in 1920 these items ate up 17.3 of every dollar.

HAPPENINGS OF THE DAY IN PROPOSED RAILROAD STRIKE.

(BY A. P. NIGHT WIRE.)

SAN ANTONIO—Tramway on International and Great Northern quit work in what is termed by union heads a 100 per cent walkout. Railroad heads announced passenger service not impaired.

CHICAGO—Leaders of eight of the eleven "standard" unions, which number more than three-fourths of nation's rail workers, announced their men will not be authorized to join the "big five" in a strike, leaving the railroad telegraphers the only men of this group definitely with the brotherhoods and the switchmen. The signal men and clerks have not yet acted. Labor Board announces that, since workers on Tremont and Gulf Railway Company in Louisiana have agreed to installation of open shop, there is no dispute and that the board relinquishes the jurisdiction over this line.

CLEVELAND—Big Four union chiefs announce they are complying with Labor Board's order that the situation remain in status quo pending Wednesday's hearing, but that they believe that the walkout will take place.

WASHINGTON—The Interstate Commerce Commission orders freight rates in western half of United States reduced 10 per cent on hay, grain and grain products.

RAILROAD FUNDING BILL IS REPORTED.

AMENDMENTS BY SENATOR CUMMINS WOULD BROADEN FINANCING OPERATIONS.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 22.—The administration bill for funding \$600,000,000 of railroad debts was reported favorably today by the Senate Interstate Commerce Committee with amendments by Senator Cummins, Republican, Iowa, chairman, broadening the financing operations.

One amendment by Senator Cummins adopted would permit marketing of railroad securities now in the hands of the Railroad Administration through private channels in addition to through purchase by the War Finance Corporation. This provision would operate to extend the sale possibly beyond the \$500,000,000 limit fixed on the War Finance Corporation.

Another amendment by Senator Cummins would bar claims of a railroad against the government for "inefficiency of labor" should the carriers agree to settlement of their accounts with the government.

The committee acted on the bill passed by the House, deciding to press it with amendments rather than the original Senate measure.

SANTA FE FIRM AGAINST STRIKE.

President Defines Attitude in Announcement.

Asserts Company is Prepared to Meet Crisis.

Warns Employees of Loss of Pension Rights.

W. B. Storey, president of the Santa Fe, in a telegram received here yesterday outlined the causes of the threatened railroad strike and defined the Santa Fe's attitude on the proposed walkout. Declaring that the road faces a crisis, the president's statement says the various company will meet it to the best of its ability and warns its employees that a strike will result in loss of work, pension rights and other privileges. The statement follows:

CHICAGO (Ill.) Oct. 21.—Following employees of the Santa Fe: The Santa Fe is once more facing a crisis. The president's statement says the various company will meet it to the best of its ability and warns its employees that a strike will result in loss of work, pension rights and other privileges. The statement follows:

ATTITUDE OF ROAD.

In order that you may know the attitude of your company in this important matter, the following statement is made:

The Santa Fe has for many years had agreements with the four big and engineers' brotherhoods. It has in times past had agreements with other groups, but it has at all times endeavored to carry out the letter every provision of those agreements. Minor differences of opinion have arisen from time to time, but we have always been glad to meet and talk them over and have succeeded in living together in peace and harmony.

While the road was in the possession of the government, the agreements were applied to the Santa Fe. When the road was returned to private ownership, the agreements were applied to the Santa Fe. When the road was returned to private ownership, the agreements were applied to the Santa Fe.

ORDERS OBEYED.

The Santa Fe has followed the orders and has dealt with all its employees and agents in accordance with the board's order. In July, 1920, the board made increases in wages aggregating about 25 per cent effective May 1 on the ground that the cost of living had increased to that extent.

Later, when a marked decline in prices lowered the cost of living, the board of the country asked that the wages in effect before July, 1920, be restored. The board asked that a portion of the request effective as of July 1, 1920, be granted. Our train and engineers, through their representatives, refused to accept the board's demand. The Santa Fe, therefore, finds itself confronted with a threatened strike through the action of the Labor Board, a body of nine men constituted as the arbiter under the laws of the United States. On the board are three representatives of labor and three representatives of the public.

DUTY TO PUBLIC.

The management of the Santa Fe has a duty to the public to give it proper service at as low rates as possible; it has a duty to its employees to pay them living wages and to make their working conditions as comfortable as possible; it has a duty to its stockholders to give them a proper return on the money invested in the property. In the effort to accomplish these first three duties, the Santa Fe must at the present time attempt to reduce its expenses, but in doing this, the road will have to meet the demands of the public.

BUSY DAYS FOR BAY CITY MINT.

Turning Out \$60,000 Silver Dollars a Day, According to Superintendent.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Oct. 22.—Approximately \$60,000 silver dollars are being made daily at the San Francisco mint under recent instructions to speed up production, according to Superintendent M. J. Kelly.

Every department is working to the full capacity, and the mint is so busy that the plant officials have suspended, for a time, the rules permitting visitors to inspect the establishment.

According to Kelly, the coining of silver dollars is being increased in order that the government might save interest on short-term treasury notes.

GOVERNMENT INTENDS TO RUN TRAINS.

Attorney-General, However, Does Not Believe Proposed Strike Will Be Much.

(BY A. P. NIGHT WIRE.)

COLUMBUS, O., Oct. 22.—Atty.-Gen. Daugherty arrived in Columbus today following a secret visit into the West in regard to the threatened strike. He left a few hours later for Washington.

He would not say where he had been or what was the nature of his mission, but he did say that he did not believe there would be a general railroad strike.

Although declaring he did not believe there would be a general strike, the Attorney-General said that should there be one, there would be no serious interruption in the operation of trains. He declared that the government would promptly exercise its authority and use every means to keep mail, freight and passenger trains running.

HE WOULD NOT DISCUSS MERITS OF THE MATTER.

He would not discuss merits of the controversy between the railroads and the government, but he did say that he did not believe there would be a general railroad strike.

WAR CLOUD OVER SOUTH EUROPE.

stricken little nations now existing through the charity of the world. A powerful portion of British statesmen, it is said, also see in the erection of a strong Danubian state under a popular and energetic chieftain the sole solution of Central Europe's troubles.

More than \$200,000,000 in American money is being used to aid Charles in his attempt to regain the throne, according to news received here from Vienna. The Viennese also remark that Charles's attempt is simultaneous with Archduke Ralf's trip to America to rally the sale of royal Austro-Hungarian property to an American syndicate which includes Samuel Untermyer, Charles Sabin, J. Leonard Repligle and others.

CHARLES VIOLATES PAROLE.

(BY CABLE-EXCLUSIVE DISPATCH.)

BERLIN, Oct. 22.—(By Long Distance Telephone to Paris.)—A member of former Emperor Charles's entourage called on President Schulerthaus this afternoon and announced the departure of the former Emperor and Empress Zita by airplane. President Schulerthaus and former President Motta expressed indignation with Charles's act which violates his parole, as he was a solemn promise to the Swiss government after his last attempt that he would not leave the country without first giving notice.

Last Wednesday four persons hired an airplane ostensibly to fly to Geneva. A pilot who gave his name as Zimmerman was employed to fly the machine and it is believed that he was a former German war aviator. It is believed that Charles made his escape in this machine, as the four passengers were heavily muffled, making their identification impossible.

BERLIN IS EXCITED.

(BY CABLE-EXCLUSIVE DISPATCH.)

BERLIN, Oct. 22.—Despite the newspaper strike, Berlin was greatly excited this afternoon when bulletins announced that former Emperor Charles had entered Austria again. On account of the lack of newspapers there were numerous rumors, one of which was that Charles was moving on Vienna with 40,000 men and that all communications between Vienna and the outside world would be cut off.

Mat. Osterburg, who is supporting Charles's attempt, was one of the heads of the monarchist terrorist attack to the old Hungarian army. He commands a battalion of from 1500 to 2000 men with headquarters in Odenburg.

CHARLES IS CONFIDENT.

(BY CABLE-EXCLUSIVE DISPATCH.)

LONDON, Oct. 22.—A dispatch from Rome to the Observer quotes a friend of the Emperor Charles in a letter published in a Trieste paper, given to a person in the Italian Austrian Empire. In the interview he makes no disguise of his confidence in his eventual return to the throne of his ancestors.

"I do not disguise to myself the difficulties to be overcome before my empire regains the limits traced for it by history," he said.

Charles admitted that his cause was not doing well among Czechs, but on the other hand asserted that it continued to gain many fresh adherents among the Croats, while Hungary, coming of the monarchist traditions with faithful people who never forget, is, according to the Emperor, anxiously awaiting the day of his return.

He foretells that the new elections in Hungary will prove a great victory for legitimism, and foresees a fresh return to Budapest at no distant date, but this time under the protection of the League of Nations.

TO B-PUZZLE CONTESTANTS.

Awards in "Times" Observation Game Probable—This Week.

Good news for the contestants in The Times Observation Contest, better known as the B-Puzzle.

The progress made by the big clerical force which for three weeks has been sifting, checking and cross-checking the immense number of lists submitted is such as to make it probable that the judges can make their final awards this week. A definite date will be announced at the earliest possible moment.

In this connection The Times wishes to thank the contestants for the patience which they have shown in awaiting the findings.

The unprecedented size of the task and the great care with which the work has been done have made the delay inevitable.

The foregoing message from the Associated Press correspondent at Budapest, bears the Budapest filing time of 6:10 p.m. today. It contains the first direct Budapest advice since the announcement of Emperor Charles's coup and it is significant that it carries no mention of any overturn at Budapest, but that instead it records the formation of a legitimist ministry at Raab, some seventy miles distant from the Hungarian capital.

MANY FORTS TO BE SOLD.

Government Will Dispose of
Thirty-nine.

McHenry Likely Will Go to
Baltimore.

Three California Parcels Are
in the List.

WASHINGTON, Oct. 22.—The ad-
ministration economy plan call for
the sale of all government-owned
real estate under control of the War
Department for which Secretary
Weeks decides there is no present
or prospective need for military pur-
poses. This property will be sold
to the highest bidder subject to the
necessary authority being obtained
from Congress whenever this action
is required by existing laws.

The property to be sold includes
not fewer than thirty-nine old
forts, including Fort McHenry in
Baltimore Harbor, which is associat-
ed with the writing of "The Star-
Spangled Banner." The city of
Baltimore has desired for some
years to use this property for park
purposes. In disposing of Fort Mc-
Henry, however, the War Depart-
ment will see that appropriate pro-
vision is made for the erection of
the national monument to Francis
Scott Key, author of the national
anthem.

DISCOVERS CAUSE OF FALLING HAIR

Chicago Specialist Says Great-
est Percentage of Baldness
Due to Alopecia
Pityrodes

Prof. John H. Austin, over 40
years a bacteriologist, hair and scalp
specialist, who now has offices at
Hamburger's, says that scalp dis-
order is often mistaken for common
"dandruff."

Alopecia pityrodes starts with a
scaling of the scalp sometimes slight,
commonly called "dandruff," some-
times abundant—producing thick,
grayish-white, dry or greasy scales
—which leads to falling of the hair.

This stage lasts from two to seven
years as a rule. At first, when the
hair starts to fall, it is hardly notice-
able, but as this ailment, "Alopecia
Pityrodes," becomes more deeply
seated and as the microbacilli multi-
ply, as they always do, the falling of
the hair increases rapidly and in
time the top of the head becomes en-
tirely bald.

Prof. Austin has found that only
the most powerful microscope can
determine the exact trouble with
which the hair and scalp are afflic-
ted, and has proved that the use of
mange cures, dandruff cures, hair ton-
ics, vaseline and oil, etc., is like
taking medicine without knowing
what you are trying to cure.

An Unusual Dining Room Suite
—is the 10-piece suite illustrated—which is also one of the most beautiful Italian suites ever featured at The Los Angeles Furniture Company. The wood is fine walnut, its exquisite graining inlaid to form patterns. It is ornamented with carving, embossed in dull gilt and polychrome tints. The chairs are upholstered in black mohair, adding just the right note to the richness of the wood. Every detail is perfect, even to the minutest points. It is graceful, dignified and distinctive, and its marking of \$1050 for the ten pieces is exceptionally low. You'll enjoy seeing this suite, which is but one of many beautiful period dining suites now being offered at The Los Angeles Furniture Company. The showing is unusually fine at present and the newly lowered prices on all furniture at The Los Angeles Furniture Company make this an opportune time for purchasing.

Separate Tables and Chairs
—for those who do not wish complete suites, are to be had in a great assortment. In many instances they may be matched to form attractive sets. Many are priced specially just now.

Sale of Bedroom Suites at Half and Less

A decided opportunity for early shoppers.

ONTARIO, Oct. 22.—Two men and two women are in jail charged with operating a wholesale whiskey still in the heart of Ontario's residence district. A large quantity of sour mash, both corn and peach, several large copper kettles and other paraphernalia are in the custody of the police, following a raid shortly before noon today on a house at 221 West D street, conducted by Chief of Police W. O. Hardy, and members of the city police force, Sheriff W. A. Sneyd and Charles Ward, special officer for the District Attorney's office.

Those under arrest are: Albert Hanna, alias "Kid Carson," said to be the prime mover in the business; Eddie Klein, a woman, who has been living with Hanna; W. B. Randall and Mrs. Louisa Randall, who have been living in the same house with Hanna and the Stein woman. Evelyn, age 5, and Frederick, age 3, said to be the children of the Stein woman, were taken into custody and turned over to the detention home.

It is possible that a charge of contributing to delinquency will be filed against Hanna and the children's mother, in addition to that of violating the provisions of the Volstead Act, with which the Randall also is charged.

Members of the raiding party, who were armed with a search warrant sworn to by Sheriff Sneyd, found a twenty-five-gallon copper kettle hid in the garret of the D-street house, while a fifty-gallon copper kettle was found hidden in the back yard. A twenty-gallon water tank, equipped with copper coils for the necessary cooling process in distilling, was found buried under a rubbish heap in the yard.

Three barrels of peach mash were found in a bedroom just off the kitchen and five one-gallon stone crocks were found filled with liquor, all of which were taken in charge by the police.

Hanna is said to have been in the habit of renting a motor car from

a local agency and delivering his liquor in that manner. He was out when officers reached the house this morning, but arrived while they were there concealed, and despite the efforts of the Stein woman to warn him to leave, was taken into custody.

He at first attempted to tell the officers that he had not been at the house for three weeks. It is expected that the quartet will be prosecuted by the Federal authorities for violation of the Volstead Prohibition Act. They are said to have lived here since last July. The house in which they were operating belongs to E. S. Goodwin.

TO FIGHT ORDINANCE.

City operators are preparing to fight the new city ordinance changing the routing of buses as recently passed by the City Directors. Circulation of referendum petitions in their fight on the ordinance will be started Monday, it was stated by Ticknor, Carter & Webster, attorneys for the city operators.

HUSBAND NAMED
AS ACID HURLER.Divorce Suit Ends Secrecy in
"Kitty McCoy" Case.Felony Warrants Out for Two
Asserted Assaultants.Wife Says Spouse is One of
Bandit-Robbers.

Naming her husband, Percy Short, as the man who robbed her and then threw several ounces of acid in her face last March on the Alhambra Road, Katie G. Short yesterday tore aside the veil of secrecy that has marked the investigation into the "Kitty McCoy" acid case and indirectly disclosed through her divorce complaint that two felony warrants have been issued for the asserted assaultants.

A weird love triangle and a family "feud" are brought to light through the suit filed by Attorney W. H. Dehm.

Mrs. Short gave her name to the deputy sheriffs as Kitty McCoy at the time of the acid attack. She declared she and a companion named Crabb had been held up by two negroes near the Crabb fruit stand on the Alhambra Road and that the negroes had thrown acid in her face. From the beginning mystery shrouded the case.

Although the attack was declared to have been made shortly after 8 p.m. on the night of March 22, Mrs. Short, giving the name of Mrs. McCoy, was not taken to the Alhambra Hospital until 10:30 p.m. She then gave no explanation of her injuries until Mr. Crabb came to the hospital and talked with her.

NEGROES ROUNDED UP.

Both Mrs. and Mr. Crabb declared the assaultants were negroes. All available men from the local Sheriff's office and also from San Bernardino were pressed into service rounding up vagrant negroes. Two scores were arrested, but none was identified by Mr. Crabb.

Deputy Sheriff Couts and Bell were assigned to the case by Chief of Criminal Investigation Manning and a few days later, after intensive investigation into the life of "Mrs. McCoy" and her associates, they admitted she had made a statement naming Henry F. Frost, husband of a sister of F. M. McCoy, her supposed husband, as one of the assaultants.

Frost was arrested on a John Doe warrant. He was taken to the bedside of "Mrs. McCoy," who was suffering from the burns she had received. Frost was charged with the crime. He faced his accused and she stared at him. Not a word escaped her lips and Deputies Couts and Bell were unable to have her deny or affirm that Frost was one of her attackers.

He was taken before Justice Northrup of Alhambra and released on his own recognizance. The case was off the calendar, that is, it was neither dismissed nor set for trial.

"Mrs. McCoy" left the hospital. It was then that she gave to a complaint designating Frost and Percy Short as the men who had held her up and thrown the acid. Charges

FUR-TOPPED HOSE
KEEPS 'EM WARM.New York Girls Will Roll 'Em
Down Despite Wintery
Blasts of East.

[BY A. P. MORT WIRE.]
NEW YORK, Oct. 22.—These rolled-down stockings that the young women have been wearing have been giving the orthodox quite a jolt. They got another, the other day, when a New York girl, returning from France, exhibited some lacy frills with which Parisians are crowning the rolls. It's getting a bit late for such summery frills, but a fur top for stockings is now under consideration for the coming winter.

of robbery and assault with caustic chemicals were made against the two men and warrants issued. Neither was served, however, because Short could not be found and Deputies Couts and Bell did not want to "tip their hand" by arresting Frost while Short was missing.

Throughout the investigation indications of ill-feeling on the part of Mr. McCoy's relatives toward the woman who said she was his wife. Another puzzling feature of the case developed when Mr. Crabb made an affidavit to the effect that the assaultants were negroes and neither was Frost to his best knowledge and belief.

This apparent contradiction was explained at the time by the officers by the statement that Frost and Short were blackened by burnt cork and that Mr. Crabb might have mistaken them for negroes.

During the robbery the assaultants looked under "Mrs. McCoy's" waist and in her stockings, she and Mr. Crabb told the officers. After rifling her purse of \$30 and forcing her to hand over a diamond ring, they threw acid in her face, the story went.

URGENT STATE CONTROL
OF PUBLIC UTILITIES.

SAN JOAQUIN COMMERCIAL
SECRETARIES ASK NO
DISCRIMINATION.

[BY A. P. MORT WIRE.]
VISALIA, Oct. 22.—The San Joaquin Valley Commercial Secretaries' Association decided today to put into circulation two initiative petitions designed to place all publicly owned public utilities under the jurisdiction of the Railroad Commission and subject them to the same taxation as privately owned public utilities.

The movement is directed against the cities of Los Angeles and San Francisco. It was announced, as their publicly owned utilities are the only ones in the State not under the control of the commission. This enables them to compete unfairly with other communities, according to the association.

LAWLER ACTION FLATLY DENIED.

Grand Jurors Say They Have Planned No Inquiry.

Bombing Mentioned in Work on Woolwine Report.

Foreman and Others Declare Report Erroneous.

Flat denial of published reports that the grand jury has decided to reopen the investigation of the bombing of the home of Oscar Lawler was made yesterday by Charles L. Elmdorf, foreman of the grand jury, P. L. Elmdorf, chairman of the Criminal Complaints Committee, and Simpson S. McClure of the Public Offices Committee.

Certain testimony regarding the bombing of the home of Oscar Lawler was given before the Public Offices Committee, but this related to an investigation by the committee of the conduct of the District Attorney's office, and not a re-investigation of the bombing, it was stated by Mr. McClure.

"So far as I know there is nothing more to be brought before the grand jury," said Mr. McClure. "I heard that an attempt will be made to revive the investigation, though."

Mr. Elmdorf stated that nothing relating to the bombing of the Lawler home had been brought before the jury as a whole, nor would he so far as he knows. He said he understood that some of the old charges would be laid before the grand jury, but that the new charges, which Mr. Elmdorf is chairman, Mr. Elmdorf, though, stated that he had nothing along this line has come to his committee.

It was stated by county officials that about forty witnesses were called before the 1919 grand jury in an inquiry of at least two weeks and nothing in the way of definite evidence was obtained. After the sensational death of Charles McGwire, who leaped from the top of Woolwine's office window, eleven floors to his death, the grand jury reported it had found insufficient evidence against anyone else.

It was understood that Oscar Lawler and a private detective agency have reduced various investigations to writing and intend to present them to the present grand jury. Whether that body will revive the inquiry is uncertain.

THOUSANDS OF SHIP SLOGANS ARE OFFERED.

MANY IN CONTEST FOR CASH PRIZES TO BE GIVEN BY STEAMER COMPANY.

To date more than 5000 suggestions for slogans to be used in advertising the steamships Yale and Harvard have been counted at the San Francisco and Los Angeles offices of the Los Angeles Steamship Company, according to an official of the company. When the returns are received from the other offices it is estimated that this number will be increased to considerably more than 6000. With over two weeks more before the close of the contest the indications are that there will be at least 10,000 slogan suggestions from which the judges will choose the winners.

It is reported that a great deal of interest has been manifested in the contest by the passengers on the Yale and Harvard, on the trips between San Francisco and Los Angeles, who have been depositing an especially large number of slogan suggestions in the boxes provided on the steamships.

The prizes total \$500 in cash.

CLERK HAS HUGE JOB.

Must Sign Thousands of Bonds Before They Are Delivered.

Life for City Clerk Dominguez is just one \$1000 bond after another. After working night and day signing "Robt. Dominguez" to 13,500 securities of \$1000 each for the purchase of the Edison distribution lines, Mr. Dominguez completed the job, and has now tackled the 1200 harbor improvement bonds, which were recently sold at par with a premium of \$27,000 to Elbridge & Co. These bonds will be delivered as soon as Mayor Croyer and City Treasurer Powell have signed them.

The power bonds have been signed by City Treasurer Powell and Mayor Croyer. Mr. Dominguez will begin tomorrow the immense task of writing his name to 1200 times. The legality of the secret sale of the 5 per cent power bonds to Irving H. Holliman at a discount of \$1,525,000 is being tested in the courts, and it may be months or years before the securities are delivered to Mr. Holliman, and the courts set aside the discount sale as illegal, the bonds must be repurchased for sale, this time under open competition.

"Better Homes Week" Big Aid to Householder.

With the conclusion of Furniture Fashion Week, or "Better Homes Week" as it was more generally known, members of the Retail Furniture Dealers' Association of Los Angeles declared yesterday that the week has done much toward the creation of ideals which will mean more and better homes and a more refined and comfortable home life in Los Angeles and Southern California.

The presentation by dealers in home furnishings of the most modern ideas for the interior beautification of homes, apart from their financial interest in the sale of such furnishings, has been a real and practical aid to the householder, according to the thousands who attended the displays in the downtown stores.

W. J. Walsh, secretary of the Retail Furniture Dealers' Association, yesterday issued a statement thanking the press for its co-operation in making the week a success.

ANNOUNCEMENT

WEAVER ROOF COMPANY

By Sylvester L. Weaver, President

AFTER many years in successfully guarding our manufacturing plant against destruction by fire we announce with regret that our plant was completely burned down Friday night. Our general offices and books at 339-41 East Second Street are intact.

Immediate preparations to rebuild have been made and to resume activities in the manufacture of Weaver Roofing and all of the products that we have been making for so many years.

Temporary arrangements have already been made to take care of our customers and continue serving the general public as usual. There may be some slight delay in fulfilling contracts and on these we ask patience.

Please continue to address the Company as usual at our offices and every effort will be made to continue quick, prompt, courteous and efficient service.

BUSINESS BRIEVITIES.

Public apology. Prof. Thomas Wilkinson begs to apologize to the numerous ladies who were unable to make appointments with him during the busy summer months, but invites them to come now, when he can give them more time and attention. Do not take swimming lessons in the pressure of the summer rush, when the pools are crowded. Those persons who swim in the cool weather are more robust than those who neglect to do so. California's buxom damsels swarm where the water is always clean and warm. The New Style of Graceful Swimming is an art superior to all others for the promotion and preservation of health. Our pupils swim miles without exertion. The Wilkinson Ladies' Plunge, 16th and Flower sts.

Lillian Payne of Payne's Dancing Academy, who has just returned from the eastern convention, announces the following new classes in ballroom dancing for the fall: Beginners' class Monday, Oct. 24; advance class Tuesday, Oct. 25; children's classes Saturday, Oct. 29; special classes for ladies, Monday and Wednesday at 11 a.m. Private lessons by appointment. Our fancy dancing department opens its fall classes in ballet and stage dancing under the direction of Jeanne Barlate of the Macagno School of New York.
